

# Cross-border Logistics for E-Commerce Business

## NEW API Integration System

# EC-Connect

EC-Connect is a system that simplifies integration for customers with their e-commerce platforms, customs brokerage and logistics providers. It provides API integration with about 30 e-commerce platforms and about 10 logistics providers.

SG SAGAWA USA, INC.'s Cross-border logistics service for e-commerce streamlines entire process of receiving items from the United States to delivery in Japan thus remediating various logistics issues, such as delivery time and costs, often encountered by e-commerce business owners.
